TPA&IA WOODTURNING, SCROLL SAW & PYROGRAPHY

The TPA&IA, in conjunction with TAWA and in collaboration with local patrons, is endeavouring to develop a premium wood competition to recognize and promote the skills of local crafts persons and the evolution of woodturning, scroll saw and pyrography crafts.

You are invited to submit entries in the 2022 Townsville Show Competition's classes. The competition is structured to increase participation in the competition and to attract entries from wood artists, and crafts persons with novice through to advanced skills.

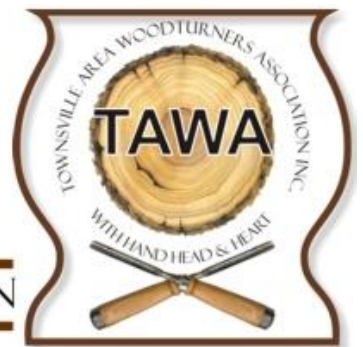

To permit and encourage innovation in all classes, any entry may now have a range of applied finished and embellishments but must still meet the criteria for entry into a class. Class 24 "Pyrography Any Item" permits the entry of any item, including commercially available craft items that have been embellished with pyrographic techniques.

TOWNSVILLE AREA WOODTURNERS ASSOCIATION INC proud sponsors of the TPA&IA woodturning, scroll saw and pyrography competition. For more information on TAWA or to view results of this and past competitions, please visit:

TOWNSVILLE AREA WOODTURNERS ASSOCIATION

If you are interested in advancing or learning new skills in scroll saw, woodturning or pyrographic techniques, swapping ideas, or socializing with others with similar interests, then please consider joining TAWA.

Our facility in Gill Park, (off Grosvenor Street) in Gulliver has considerable resources available to members and includes scroll saws, band saws, grinders, pyrography unit, wood lathes, drill press and sander/finisher.

Equipment is available for members' use during workshop sessions at a nominal workshop fee.

Judging Criteria

All eligible entries will be judged. Two Judges will adjudicate the Open, Intermediate, Novice and Student woodturning sections; and in the scroll saw and pyrography sections.

Basis of Judging

Judges will individually assess each and every eligible entry and award points from 1 (low) to 15 (high) on the following basis:-

WORKMANSHIP	15 points – includes tool skills, accuracy, matching grains and surfaces
DESIGN	15 points – includes originality, proportion and balance, and visual appeal
FINISH	15 points– includes lack of tool and sanding marks & consistency. Feels dust free & is suitable for purpose and the particular wood.
LEVEL OF DIFFICULTY	15 points- includes techniques used in completing the item
TOTAL:	60 points

Points for each class will be ranked and the highest three marks will determine first, second and third places in each class. In the event of a tie, items will be referred to the Judges to determine a result.

For all Open, Intermediate, Novice & Student Section placings will be awarded the following points to determine the individual winners in each section:

First Place – 15 Points

Second Place – 10 Points

Third Place – 5 Points

In the event of a tie for aggregate points the competitor with the highest number of first prize-winning entries, then second winning points will then determine the individual winner.

Final total judging marks will be available on request. However individual Judge's marks will not be disclosed, in any circumstance.

THE JUDGES' DECISIONS WILL BE FINAL.
